CRB found they needed more space to grow and chose a suite in 650 Trade Centre Way to accommodate their expanding team and needs. The vision was to provide a versatile, modern office space that would reflect their corporate values of technical excellence, collaboration, and fun while providing their team with an inspiring and engaging workplace.

High end finishes were desired to meet CRB's vision as well as a robust mechanical system. AVB had to develop creative cost saving measures to ensure both goals for aesthetic and function were met. Additionally, AVB navigated this build-out during the COVID-19 pandemic, successfully navigating labor shortages and material procurement set-backs. AVB is proud to have completed this inspiring build-out on time and on budget.
